To solve problems caused by:

Temperature variations

Weathering conditions

Sudden variations in humidity

Traceability

## EMERSON GO Real Time Trackers: real time control

**EMERSON GO Real-Time Trackers** monitors location and temperature anywhere in the world and provides real-time alerts.

### **Oversight Dashboard. Data at your fingertips**

Comprehensive and automated reporting is provided through the Oversight Dashboard and the Oversight Mobile app. Data is encrypted, providing security as it moves to the cloud. Information is at your fingertips while you are on the go with Oversight Mobile. Check status and create shipments direct from a phone or tablet. View current maps, graphs, and charts of key shipments including temperature, humidity, security, and location details. Shipment summary reports include additional details such as device serial number, trip name and duration, mean kinetic temperature, and time above or below range.

### **EMERSON Go Real-Time 4G/5G**

#### **Maintain control over quality every step of the way**

Keeping track of shipments has never been easier with the GO Real-Time 4G/5G Tracker. Using cellular technology, trackers provide temperature and location alerts as your shipment moves through the supply chain. And now, with our 4G/5G cellular technology, connectivity and access to your data is further enhanced. Rest assured that visibility to temperature, humidity, and location data will be available despite the ongoing transition in the cellular technology industry.

Go Real-Time XL 4G/5G-N is available in N version with non-lithium battery.

trackers

**GEMERSON O Real-Time XL 4G/5G**

**Global visibility and protection for extended shipments**

Extended battery life provides full coverage for your products on the road, in the port and out on the water. When your ship leaves port, the GO Real-Time XL keeps track of the temperature and GO Real-Time XL 4G/5G also of humidity. Every time the ship nears port, the unit automatically connects and uploads data before the ship reaches the docks. And now, with our tri-mode 4G/5G cellular technology, connectivity and access to your data is further enhanced. Rest assured that visibility to temperature and location data will be available despite the ongoing transition in the cellular technology industry.

Go Real-Time XL 4G/5G-N is also available in N version with non-lithium battery.

**EMERSON GO Real-Time Reusable 4G/5G**

**Recharge for visibility safety of extended shipments**

GO Real-Time Reusable are temperature monitoring solutions that do not require fixed installation or hardware maintenance, with continuous coverage for your products over the road. The reusable solution is designed for customers who would like to reuse the same tracker on multiple shipments.

With our 4G/5G cellular technology and ability to recharge, access to your data is further enhanced.

All GO Real-Time Trackers senses light when doors or boxes are opened and alerts you when your products are at risk on the road.
